Kaiser-Hill is submitting a revised and appended Closeout Report. The report includes a new appendix that compares analytical results with the Wildlife Refuge Worker action levels, and edits made in response to agency comments on the draft closeout report and other previous closeout reports. It also includes new data on four sample locations. These locations (CE39-004, CF39-002, CF39-005 and CF39-010) were sampled after Building 884 and an adjacent cargo container were removed.
